Call info	The EMBO Short-Term Fellowships fund research exchanges of up to three months between laboratories in eligible countries. The aim is to facilitate valuable collaborations with research groups applying techniques that are unavailable in the applicant's laboratory. Short-Term Fellowships are intended for joint research work rather than consultations.
Conditions / Restrictions	Applicant needs to register for an EMBO online application account. Once login details for the account have been received it is possible to start an application. Applicant can apply repeatedly for new project in a different laboratory. New application is only possible 12 months after the end of the previous STF or in the case of unsuccessful applicants, the date of application. Applicant may only submit one application , for one project, at one host laboratory at each round of selection. It is recommended that applications be submitted at least 3 months before the proposed start date of the research visit, or at minimum, applications must be submitted before the start date of the research visit. All research activities must be in compliance with fundamental ethical and research integrity principles, such as those set out in the Belmont Report: Ethical Principles

	<p>and Guidelines for the Protection of Human Subjects of Research, and in the Singapore Statement on Research Integrity.</p> <p>Applicant should list and activate contacts of two referees and the host institute supervisor. It is responsibility of the applicant to check that the referees and the host supervisor have received the request and complete the form.</p> <p>Figures and tables cannot be included in the application.</p>
Proposal consists of	<p>I) Online Application Form via the EMBO online system, https://applications.embo.org/register.php?reg=80DN:</p> <p>(1) applicant; (2) contact details for two referees; (3) contact details for the receiving institute & supervisor; (4) proposed work: a 250-word summary, a 1500-word synopsis of the proposed activity, references, keywords, proposed duration, justification (200 words), career plan; (5) present work: home institute, current position, current work (500 words), benefit to home lab (200 words); (6) scientific CV: research experience, full CV since PhD research, education, PhD award, publications; (7) other funding sources; (8) ORCID ID, https://orcid.org/register</p> <p>II) Two reference letters: one must be from the current supervisor, none can come from referees in the host institute. In the case that the applicant is already an independent researcher, only one reference letter from a legal representative of the home institution (Dean, Director etc.) is required.</p> <p>III) Acceptance letter from the receiving institute submitted by the host supervisor</p>
Evaluation criteria	<p>(1) Quality of the project to be developed in the host laboratory (novelty, feasibility).</p> <p>(2) The suitability of the host laboratory for the proposed work and previous interactions with the home laboratory. Is the topic covered in sufficient depth and breadth?</p> <p>(3) Value of the exchange for the laboratories involved (expertise or technology transfer, collaboration, co-publication).</p> <p>(4) CV of the candidate, and in particular research experience.</p>
