| Call identifier | Newton-2018 |
| Call info | These fellowships support the development and training of postdoctoral researchers at an early stage of their career from any country outside the UK, by providing an opportunity to work at a UK research institution for two years. |
| Conditions / Restrictions | Applicants must hold a PhD by the time funding starts and should have no more than 7 years of active full-time postdoctoral experience at the time of submission. Applicants should be working outside the UK and should not hold UK citizenship at the time of application. Applicants who completed their PhD at a UK organisation must have been working and based outside the UK for at least one year at the deadline for the application. Contact between the UK co-applicant & applicant should lead to a clearly defined and mutually-beneficial research project. The UK co-applicant must be an established researcher of at least postdoctoral status, must make all the necessary practical & administrative arrangements for the duration of the fellowship and must hold a permanent or fixed term contract in a publicly-funded research organisation. Applicants may only submit 1 application in a round. The application must be with only 1 Co-applicant at a UK host organisation. Applicants must be competent in oral and written English. Former Newton fellows are not permitted to apply again. |
