IOCB Publication Support Policy

IOCB is interested in increasing visibility and impact of its publications

When appropriate, the institute is willing to pay for extra costs associated with improved presentation of selected papers, such as color pictures, cover feature, open access, etc.

Here is the recommended protocol for the authors:

1. Talk to the director to get his consent to support the publication
2. Negotiate with the publishers directly and pay for the extra costs from your group's budget (VEJ)
3. Send the copy of the invoice to the Economic dept. (cc to the Director's office) and the expenses will be reimbursed to your group's budget

Complaints regarding chemical odors

Coming from the concerned neighbors – rotten-eggs sulfur-like odors noticed occasionally

Karel Šobíšek addressed the issue with Dept. Of Environment – we have an official statement, that the odors are not coming from our purification station.

Sept. 4 – Visit of Mayor of Prague 6 with one of the concerned neighbors
- Clarification

Request to our chemists – as a preventive measure:

Please let Mr. Šobíšek know, when you are planning to use mercaptan or similar malodorous substances.
