

Director's Decree V2018-11

December 31, 2018

Organizational Changes

As of December 31, 2018, I make the following changes:

1. I dissolve the Senior Research Group of Josef Michl.
2. I dissolve the Targeted Research Group "Steroidal Inhibitors" headed by Martin Kotora.

As of January 1, 2019, I make the following changes:

3. I transfer Josef Michl to the "Distinguished Emeritus Scientist" category, which enables him to lead a small group with the aim of completing ongoing grants and international collaborations (Deputy: Miroslav Dudič).
4. I establish a new Targeted Research Group "Coordination Chemistry" headed by Miloslav Polášek (Deputy: Tomáš David).
5. I establish a new Targeted Research Group "Neurosteroids" headed by Eva Kudová (Deputy: Hana Chodounská).
6. I establish a new Service Group "IOCB Compound Library" headed by Pavel Šácha.

Based on the results of an open international competition and in accordance with recommendation of the IOCB International Advisory Board, I make the following changes with effect from January 1, 2019:

7. I establish a new Junior Research Group „Molecular Devices“ of Jiří Kaleta in the field of organic chemistry (Deputy: Guillaume Bastien).
8. I establish a new Junior Research Group „Redox Photochemistry“ of Tomáš Slanina (starting from April 1, 2019) in the field of organic chemistry (Deputy will be appointed later on).

Zdeněk Hostomský
Institute Director
