	Call identifier	

Call info	The goal of this group of grant projects is to create favourable circumstances for development of excellent research, to set the standards of excellent science, to help to overcome barriers limiting the success rate of ERC project proposals, and to provide an opportunity to obtain valuable knowledge and experience for those interested in submitting highly prestigious European grant projects. A result of a successfully carried out EXPRO grant project is an ERC project proposal.
Conditions /	- workload 0,5 for each person (drafter, co-drafter, every professional collaborator and
Restrictions	other professional collaborator) except technical and administrative staff, undergraduates and graduates,
	- transfer between items of the basic structure up to 50,000 CZK,
	 the maximum possible amount of subsidy for other personnel costs is 7 % of total subsidy for the personnel costs.
	- a single person may only take part in at most a single project in the role of applicant or at most a single project in the role of co-applicant
Proposal consists of	Projects proposal forms are available exclusively in the GRIS application (annexes– CV, part C1, special approval and Letter of Intent have to be uploaded)
	https://cas.gris.cz/cas/login
	Grant Office will ensure mandatory annexes for IOCB as a whole and submission of final proposals via data mailbox after finalisation in the application.
Evaluation criteria	 the originality, quality and breakthrough ideas of the proposed grant project the capability and qualifications of the applicant and potential co-applicant and their professional collaborators the ability of the organization and co- organization to carry out the grant project with
	regard to their technical and institutional background
	truthfulness and accuracy of information in project proposalproposed costs
Research areas	a) Mathematics and physics 1
	b) Physics 2
	c) Chemistry
	d) Human biology and medical sciences e) Biological and agricultural sciences
	f) Social sciences
	g) Humanities
	h) Technical sciences, computer sciences
