

RE: Decision to establish a "Medicinal Chemistry" scientific-service team and organizational changes

As of September 19, 2011, I establish a "Medicinal Chemistry" scientific-service team – internal number 390/39. As the leader of this team, I appoint RNDr. Pavel Majer, CSc.

The purpose of the establishment of this team is to provide service in the preparation of chemical substances for medicinal use for all of the scientific teams of the institute and in cooperation with the teams of the institute to design and prepare biologically active substances. Its other obligations include the preparation of substances on a greater scale predominantly for biological tests, for the commercialization of the results of scientific groups and the preparation of the initial substances in cooperation with the scientific teams of the institute. The team will assure service analysis of the proteins for the other teams of the institute.

As of September 30, 2011, I cancel the "Synthesis of Peptides"– 997/99 and "Analysis of Proteins" – 998/99 service workplaces.

As of October 1, 2011, the "Medicinal Chemistry" scientific-service team will assume the tasks of the "Synthesis of Peptides" and "Analysis of Proteins" service workplaces. The current employees of these workplaces will be transferred within the mentioned organizational changes in the following way:

1. To the "Medicinal Chemistry" scientific-service team – 390/39:
M.Blechová, M.Hradilek, A.Prichodko, Z.Voburka, R.Souček, V.Himrová
2. To the senior scientific team of Ing. Pichová – 240/24:
D.Prášková, J.Šípová

September 23, 2011

RNDr. Zdeněk Havlas, DrSc.
Director
