Table of Content

1. Application Process

1.1. Registration

Research consortia who intend to submit a transnational project proposal should register using the electronic proposal system (we advise as early as possible) via the link: https://ptoutline.eu/app/ejprd20.
To register, please fill in the data sheet in the system. The same data sheet can be used for the final electronic proposal submission.

1.2. Pre- and Full Proposals

There will be a two-stage submission procedure for joint applications: pre-proposals and then full proposals. In both cases, one joint proposal document (in English) shall be prepared by the partners of a research consortium. The project coordinator must then submit the joint proposal to the Joint Call Secretariat (JCS) via the electronic submission system (https://ptoutline.eu/app/ejprd20). **Proposals must be prepared using the forms provided on the EJP RD web page (www.ejprarediseases.org). Proposals not conforming to the instructions in the form (including length and format) will be rejected.**

There is no need to submit a paper version of the proposal, however, both the electronic pre-proposals and full proposals need to be signed (electronic signature or a scanned copy of the signature page will be accepted).

Joint pre-proposals (in English) must be received by the JCS in an electronic version no later than **February 18th 2020 at 2:00 p.m. Central European Time (CET)**.

Full proposals (in English) must be received by the JCS in an electronic version no later than **June 16th 2020 at 2:00 p.m. Central European Summer Time (CEST)**.

1.3. Rebuttal stage

Please note that project coordinators will be provided with the opportunity to study the assessments of external reviewers and comment on their evaluations of full proposals (for details see section 6.3 in the "Call text" document).

2. Advice for preparing your proposal

Carefully read the "Call Text" and this "Guidelines for Applicants" document, including the call aim and evaluation criteria.

Proposals not conforming to the following may be rejected without review:

- Make sure that your proposal falls into the **scope of the call**
- Make sure that your proposal fulfils the **eligibility criteria of the call**
- Make sure that all consortium members have understood **the national eligibility criteria and requirements** (Annex 1&2) and that they fulfil these criteria
- Make sure that all consortium members **contacted their national representative** and confirmed eligibility with their respective funding agencies in advance of submitting an application (see Annex 1&2)
- Prepare your proposal in advance and enter the requested information on the submission site as soon as possible to **avoid possible overloading on the submission deadlines**
- **Use the proposal forms** provided on the EJP RD website (www.ejprarediseases.org)
- **Respect the length limitations** of each section in the proposals

3. Early Career Researchers (ECRs)

3.1. Definition

Please note that national/regional definitions and time limits might differ. **Therefore, please refer to national guidelines and contact your national/regional funder.** ECRs are otherwise defined as per the regulations of the European Research Council criteria for starting grants. In short, the researcher must have been awarded their **first doctoral degree (PhD) two to seven years prior** to the pre-proposal submission deadline. Extensions to this period are allowed (with documentation) in the case of reasonably justified career breaks: absence for maternal, paternal or long-term sick leave, and compulsory military service.

For medical doctors (or applicants holding a degree in medicine), an MD is not by itself considered equivalent to a PhD award. To be considered an ECR, these applicants must provide the certificates of both a medical doctor degree and a PhD, or proof of an appointment that requires doctoral equivalency (e.g. post-doctoral fellowship or professorship appointment). MD applicants that do not hold a PhD must have been awarded their **MD four to nine years prior** to the pre-proposal submission deadline. For medical doctors who have been awarded both an MD and a PhD, the date of the earliest degree that makes the applicant eligible will be used to calculate eligibility. Extensions to this period will be given (with documentation) for clinical training periods up to a maximum of four years.

3.2. Eligibility of ECRs

The following dates must be provided by Early Career Researchers so that their eligibility can be evaluated according to their respective regional/national regulations. This information must be present in the CV in the pre- and full proposal forms.

Medical doctors with PhD

Medical Studies:	*indicate dates (start and end) of your studies (year and month)*
End of studies:	*indicate date of your medical certificate*
PhD Time:	*indicate dates (start and end) of your PhD time (year and month)*
PhD:	*indicate date of your PhD certificate*
Appointment:	*indicate dates (start and end) of the appointment that requires doctoral equivalency (e.g. post-doctoral fellowship or professorship appointment), only if applicable*

Medical doctors without PhD

Medical Studies:	*indicate dates (start and end) of your studies (year and month)*
End of studies:	*indicate date of your certificate*
Appointment:	*indicate dates of the appointment that requires doctoral equivalency (e.g. post-doctoral fellowship or professorship appointment)*

Other Early Career Scientists with PhD

Studies:	*indicate dates (start and end) of your studies (year and month)*
End of studies:	*indicate date of your certificate*
PhD Time:	*indicate dates (start and end) of your PhD time (year and month)*
PhD:	*indicate date of your PhD certificate*

Other Early Career Scientists without PhD

Studies:	*indicate dates (start and end) of your studies (year and month)*
End of studies:	*indicate date of your certificate*
Appointment:	*indicate dates of the appointment that requires doctoral equivalency (e.g. post-doctoral fellowship or professorship appointment)*

Reasons for Extensions, if applicable

Clinical Training:	*indicate dates (start and end) of clinical training (year and month);*
Parental leave:	*Women: number of children (1.5 years are given per child; in case of longer maternal leave, please indicate the exact dates); Men: indicate exact dates of paternal leave (per child)*
Career Break:	*indicate dates (year and month) of other career breaks: long-term sick leave, compulsory military service, carer's leave*

4. Financial and Legal Issues

4.1. Funding model and Call governance

The EJP RD JTC 2020 Funding agencies have agreed to launch a joint call using the "virtual common pot" funding mode. This means that national/regional funding will be made available through national/regional funding agencies according to national/regional funding regulations. In addition, the EC will also provide funding that will maximize the number of selected projects that can be funded in rank order. Funding from the EC will be distributed through the national/regional funding agencies for a maximum of three years. Funding for Patient Advocacy Organisations (PAOs) will be administered by INSERM (France), see Annex 1 for more information and contact points.

The ANR (France) is acting as Joint Call Secretariat (JCS) to assist the Call Steering Committee (CSC), and the national/regional funding agencies during the implementation of the call. CSO-MOH (Israel) and FNRS (Belgium) will be responsible for the follow-up phase until the funded research projects have ended. The JCS will be responsible for the administrative management of the call. It will be the primary point of contact referring to the call procedures between the research consortia, the funding agencies (CSC), and the peer reviewers. The project coordinator will be the point of contact for the JCS during the application procedure, and is responsible for forwarding this information their project partners.

4.2. Widening for the inclusion of underrepresented and undersubscribed countries

For proposals invited to the full proposal stage, there will be a widening step to provide the opportunity to add partners to the project consortium (up to a maximum total of 8, see section 4.3 Consortium Makeup in Call Text). This step will allow for the addition of partners from participating countries that are usually underrepresented in the call, as well as those undersubscribed (countries without any selected applicants for the 2nd stage). This inclusion will not be considered as a fundamental change between pre- and full proposal. **Inclusion of new research teams is not mandatory. The new teams included should bring an added value and expertise to the projects.**

Process:

1. A list of countries eligible for this widening procedure will be published on the EJP RD website after completion of the 1st stage of evaluation and sent to the coordinators who are invited to write a full proposal.
2. Two inclusion options will be available:
   a) The relevant national funding agencies may produce a list of research teams that could provide additional expertise to projects. **For this, the title, pre-proposal abstract, and composition of the consortium will be shared with potentially interested research teams.** The JCS will then provide this list to the coordinators of projects invited to the full proposal stage, and give them the option of adding them to the existing consortium.
   b) The coordinator/partners of projects invited to the 2nd stage of evaluation can inquire themselves about suitable partners from among listed countries. The new prospective partner must then contact their national funding agency to confirm their eligibility.

In all cases, the final decision on whether to take a new research team on board will be taken by the project consortium. The rules concerning the maximum number of partners in a consortium and the maximum of two research teams per country must still be respected. Furthermore, the new research team must be eligible for the national funding agency. For this purpose, national funding agencies from underrepresented or undersubscribed countries may indicate that only national research teams that were already involved in pre-proposals (and thus are eligible) are allowed to make use of this widening step.

4.3. Funding contracts

Each project includes several partners as beneficiaries. Each partner will have a separate funding contract/letter of grant with their respective national/regional funding agency, and according to their regulations.

Changes to the composition of research consortia or budget cannot occur within the contract/letter of grant without thorough justification. Minor changes will be handled by the relevant national/regional funding agency. In the case of major changes, such as a change in consortium structure, an independent expert may be consulted to help with the final decision of the funding agencies. Research partners must inform the JCS and the respective funding agencies of any event that might affect the implementation of the project.

4.4. Project start and consortium agreement

Consortium members of projects selected for funding **must fix a common project start date**, which will be the reference date for yearly and final reports and extensions. This common project start date must appear in the **Consortium Agreement (CA).**

The project consortium partners must sign a CA for cooperation. For reference, applicants may consider modifying the DESCA 2020 Model Consortium Agreement. It is recommended that the CA be signed by all relevant parties before the official project start date. Please note that national/regional regulations may apply concerning the requirement for a CA (please contact your national/regional contact point or check Annex 2). This consortium agreement must be made available on request to the relevant EJP RD JTC 2020 funding agencies.

The purpose of the CA shall be:

- to underpin the collaboration and provide research partners with mutual assurance on project management structures and procedures, and their rights and obligations towards one another
- to assure the CSC that the research consortium has a satisfactory decision making capability and is able to work together in a synergistic manner

The following subjects should be addressed by the CA (at minimum):

- purpose of and definitions used in the CA
- names of organisations involved
- common start date of the research project
- organisation and management of the project
- role and responsibilities of the research consortium coordinator and the research partners: person in charge, their obligations and key tasks, conditions for their change
- deliverables (transnational reports and, if relevant, requirements for national reports where coordination is required)
- resources and funding
- confidentiality and publishing
- intellectual property rights (how this issue will be handled between research partners)
- decision making within the consortium

- handling of internal disputes
- the liabilities of the research partners towards one another (including the handling of default of contract)

4.5. Ownership of intellectual property rights

Results and new Intellectual Property Rights (IPR) resulting from projects funded through the EJP RD JTC 2020 will be owned by the selected project partner's organisation, according to national/regional rules on IPR. In the case of joint development of intellectual property, consortium partners will resolve this issue internally using their consortium agreement and relevant legal guidelines, and taking into account their relative contributions (this should be described in the consortium agreement).

The results of the research project and IPR created should be actively exploited and made available for use, whether for commercial gain or not, in order for public benefit to be obtained from the knowledge created.

The funding agencies shall have the right to use documents, information and results submitted by the research partners and/or to use the information and results for their own purposes, provided that the owner's rights are kept and taking care to specify their origin.

4.6. IRDiRC policies and guidelines

The project partners **are expected to follow IRDiRC policies and guidelines**.

4.7. European and International standards

The submitted proposals must respect relevant European and international standards including:

- H2020 ethics manual for research projects,
- The Declaration of Helsinki Ethical Principles for Medical Research Involving Human Subjects,
- The new EC Regulation EC 2016/679 (GDPR) on the protection of natural persons with regard to the processing of personal data and on the free movement of such data. This Regulation applies in all Member States from May 25, 2018 and thus all EJPRD JTC 2020 projects,
- The EC Directive 2010/63/EU on the protection of animals used for scientific purposes,
- European Research Council Guidelines on Implementation of Open Access to Scientific Publications and Research Data,

- To make research data findable, accessible, interoperable and re-usable (FAIR), a data management strategy is mandatory in the full proposal. Example questions for a data management strategy.

4.8. Publication of Results

Each beneficiary must ensure open access (free of charge, online access for any user) to all peer-reviewed scientific publications relating to their results, if this is compliant with national/regional funding regulations.

Funding recipients must ensure that all outcomes (publications, etc.) of transnational EJP RD projects include a proper acknowledgement of EJP RD and the respective national/regional funding agencies. This includes the display of the EJP RD logo when possible.

Unless the EC requests or agrees otherwise or unless it is impossible, any dissemination of results (in any form, including electronic) must:

1. display the EU emblem and
2. include the following text: "This project has received funding from the European Union's Horizon 2020 research and innovation programme under the EJP RD COFUND-EJP N° 825575".

When displayed together with another logo, the EU emblem must have appropriate prominence. For the purposes of the obligations under this Article, the beneficiary may use the EU emblem without first obtaining approval from the Agency. This does not however give it the right to exclusive use. Moreover, the project partners (beneficiaries) may not appropriate the EU emblem or any similar trademark or logo, either by registration or by any other means.

5. General Data Protection Regulation

The following Data Privacy Notice applies[1]

By submitting an application to the Co-funded call, applicants consent to the use, processing and retention of their data for the purposes of:

- processing and evaluating the application where processing shall be lawful only if and to the extent that processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller;
- administering any subsequent funding award;
- managing the Funding Party's relationship with them;
- analysing and evaluating the Co-funded call;

[1] General Data Protection Regulation (GDPR – Regulation (EU) 2016/679)

- reporting to the European Commission/ Research Executive Agency (REA) on the Co-funded call;
- providing aggregate data to national and European surveys and analyses;
- complying with audits that may be initiated by the Funding Parties and the European Commission (or its agencies).

The members of the EJP RD consortia may share an applicant's data with third parties (some of which may be based outside the European Economic Area) in relation to the above activities including evaluators, auditors and the European Commission (or its agencies).

The members of the EJP RD consortia may link the data that applicants provide in the application with national, bibliographic or external research funding data which is available through public subscription based databases (e.g. Scopus, Web of Science, etc.) or other national / open datasets. The members of the EJP RD consortia may also link the data that applicants provide in their application with future data that applicants provide as part of the ongoing management and reporting on a Co-funded call award which may be awarded to them.

Data on Funding Parties including contact details of FC members and NCP/RCP are kept for the purpose of the Co-funded call communication. The information will be published with prior consent of the respective management bodies.

ANNEX 1: Guidelines for Patient Advocacy Organisations

INSERM, France is responsible for administering the funding for all PAOs.

Country	Multinational - Funding of All Patient Advocacy Organisations only
Funding organisation	Institut National de la Santé et de la Recherche Médicale (INSERM)
National contact person	**E-mail**: pao@ejprarediseases.org
Funding commitment	0.7 M€
Overheads	Overheads cost category corresponding to « frais généraux » are limited to 15% of total grant amount (that is 15% * 50 000 € = 7500 €).
Anticipated number of fundable PAO partners	10
Maximum funding per grant awarded to a partner	50.000 € per project (if more than one PAO participating the amount should be divided)
Eligibility of a partner as a beneficiary institution	Patient Advocacy Organisations (PAO) only. **Definition of rare disease patient advocacy organisations:** Patient advocacy organisations are defined as not-for-profit organisations, which are patient focused, and where patients and/or carers and/or family members of patients represent a majority of members in governing bodies. These are: • Umbrella organisations (e.g. representing either European organisations and/or national umbrella organisations for rare diseases); • European rare disease specific organisations (i.e. representing national organisations or individual patients on rare diseases) and • National rare disease specific organisations

Eligibility of costs, types and their caps	Expenses recognized as eligible are: personnel costs and operating expenses (travels, meeting, conference registration, etc.) but excluding office and IT equipment (workstation, mobile phone, tablets, etc.). Only temporary staff costs are eligible, in proportion to the time spent on the project, with justification in the form of a time sheet. The amount of the grant granted to the PAO in each project is 50 000 €. If several PAOs work in the same project, they share this amount among themselves. Expenditure on general, administrative and / or infrastructure costs is eligible (overheads = frais généraux) is up to 15% of the grant amount. The subcontracting is eligible for up to 50% of the grant. All justifications and supporting documents are auditable by Inserm or by any representative appointed by it during the project and a period of 4 years after its completion.
Submission of the proposal at the national level	**Criteria to be fulfilled by PAOs:** The Patient Advocacy Organisations shall fulfil the following criteria: • **Legitimacy**: o Represent rare diseases according to EU prevalence criteria (5/10 000) as defined in the: EU Regulation on Orphan Medicinal Products (1999), Commission Communication on Rare Diseases 2008), Council Recommendation on an Action on Rare Diseases (2009), and Directive on Patients' Rights in Cross-Border HealthCare (2011) • the organisation should be formally established and registered as a not-for-profit organisation in one of the Member States of the EU/EEA/participating in the EJP for RD for more than 1 year • **Mission/objectives**: the organisation shall have its mission/objectives clearly defined and should agree to have it/them published on the EJP RD website. • **Activities**: the organisation shall have, as part of its activities, a specific interest in rare diseases which should be documented (e.g. through a report published on the organisation website). • **Representation**: the organisation shall be representative of rare disease patients within a member state or throughout the EU/EEA. • **Structure**: o the organisation should have governing bodies which includes a majority of rare disease patients or family members of rare disease patients. o Includes in its governing structure a designated representative legally authorised to sign a contract with a public funder/Inserm. • **Accountability:** o With proven activities such as rare disease patient support and/or advocacy activities and/or rare disease

	research ○ statements and opinions of the organisation should reflect the views and opinions of its members and adequate consultation procedures with those members should be in place. In particular, the organisation should ensure that the appropriate flow of information is in place to allow dialogue both ways: from and towards its members. ○ Can demonstrate that its account system is able to trace all costs related to the project and archive these costs for a duration of 5 years after the last payment received from the funder. • **Transparency:** ○ The organisation shall be financially independent, particularly from the pharmaceutical industry (max. 50% of funding from several companies) and disclose to the EJP RD its sources of funding both public and private by providing the name of the bodies and their individual financial contribution, both in absolute terms and in terms of overall percentage of the organisation budget. Any relationship with corporate sponsorship should be clear and transparent. This information shall be communicated to the EJP RD on an annual basis. ○ The organisation shall publish on its website the registered statutes, sources of funding, and information on their activities. ○ To facilitate communication, a contact person shall be identified for each organisation.

ANNEX 2: Country and Region-Specific Guidelines

It is strongly advised that all applicants contact their EJP RD National/Regional Contact Point in good time before the submission of a proposal

AUSTRIA, FWF

Country	Austria
Funding organisation	Fonds zur Förderung der Wissenschaftlichen Forschung (FWF) / Austrian Science Fund http://www.fwf.ac.at
National contact person	**Stephanie Resch** **Phone:** +43 (1) 505 67 40-8201, **E-mail**: stephanie.resch@fwf.ac.at **Anita Stürtz** **Phone**: +43 (1) 505 67 40-8206, **E-mail**: anita.stuertz@fwf.ac.at
Funding commitment	0,6M€
Overheads	Overheads are not eligible costs for FWF.
Anticipated number of fundable research partners	2
Maximum funding per grant awarded to a partner	For scientists funded by the FWF, the funding is limited to "project-specific costs, i.e. personnel and non-personnel costs that are essential to carry out the project and that go beyond the resources made available from the research institution's infrastructure, according to the general FWF Funding Guidelines published at https://www.fwf.ac.at/fileadmin/files/Dokumente/Antragstellung/Einzelprojekte/p_application-guidelines.pdf The FWF does not finance infrastructure or basic equipment at research institutions. Overheads may not be requested. Subcontracts must be well justified, i.e. must represent the only or the most economical way to have the work performed, please contact the FWF directly for clarification of individual cases. The current FWF salary scale (http://www.fwf.ac.at/en/research-funding/personnel-costs/ indicates the salaries that may be requested.
Eligibility of a partner as a beneficiary institution	Individual researcher, working in any kind of non-profit organisation: e.g. University, University hospital, Non-university research institute Please refer also to the general FWF Funding Guidelines: http://www.fwf.ac.at/fileadmin/files/Dokumente/Antragstellung/Einzelprojekte/p_application-guidelines.pdf available on: http://www.fwf.ac.at/en/research-funding/application/international-programmes/joint-projects-era-nets/

Additional specific rules	Please note that starting on August 1, 2018, the number of ongoing/approved/submitted projects in which one researcher can serve as principal investigator will be limited to three in the Stand-Alone Projects Programme, International Programmes (including ERA-Net projects!), Clinical Research and Arts-Based Research Programmes. Principal investigators who already have three ongoing/approved/submitted projects will not be permitted to submit another application within those programmes until 12 months before the end of one of their ongoing projects. You are strongly advised to contact the national representative in case you may be affected by this regulation. https://www.fwf.ac.at/fileadmin/files/Dokumente/Antragstellung/project_number_limit.pdf
Submission of the proposal at the national level	FWF Submission: In addition to the application at the call secretariat administrative data (in accordance with the FWF guidelines for stand-alone projects) must be submitted online to the FWF at https://elane.fwf.ac.at/ This is required already at the pre-registration stage via the programme category "IK – International Projects (preproposal, deadline February 12th 2020)". For the full proposal stage applicants must choose the programme category "I – International Projects". Both steps are mandatory. For submissions to be valid, the cover sheet generated at the end of the online submission process must be printed out and signed. It can then either be sent to the FWF by conventional mail (FWF, Sensengasse 1, 1090 Vienna) or scanned in, given a digital signature and sent to the FWF (office@fwf.ac.at) as an e-mail attachment. Detailed information may be found under the Internet http://www.fwf.ac.at/fileadmin/files/Dokumente/Antragstellung/Internationale_Programme/i_infosheet-era-net.pdf

BELGIUM, FWO

Country / Region	Belgium, Flanders
Funding organisation	Research Foundation - Flanders (FWO) http://www.fwo.be/
National contact person	Alain Deleener +32 2 550 15 45 Toon Monbaliu +32 2 550 15 70 eranet@fwo.be
Funding commitment	0.7M€
Overheads	Both the FWO Strategic Basic Research Projects (SBO), which are directed towards future applications and valorisation potential, next to the 'classic' FWO projects, with a more fundamental (FO) nature, are integrated in this call, each with specific regulations. Determining the overhead amount depends consequently on the FWO funding channel in which the Flemish subproject fits: **For FO projects:** A mandatory 6% overhead cost has to be included in the requested funding of max. 350.000 EUR per project/consortium. This structural overhead cost of 6%, calculated on the applied for budget or 'direct costs' (personnel, consumables, travel, equipment, other), needs to be inserted in the 'overhead' category. A practical example: if 330.000 EUR (excl. overhead) is requested by a researcher, and comprises for example personnel, consumables and travel costs, then a 6% structural overhead cost has to be calculated on this amount (19.800 EUR). The total requested budget in this example would thus be 349.800 EUR (incl. overhead). **For SBO projects:** The specific SBO overhead regulations apply, which can be consulted on the FWO website. Researchers are advised to contact the central coordination unit or relevant contact points at their host institution, as the overhead requirements for SBO projects might differ per institution. **The total applied amount can never, for both funding channels, exceed 350.000 EUR, overhead included.**

Anticipated number of fundable research partners	2-3
Eligibility of project duration	Projects have to respect a maximum 36 month duration and projects have to be budgeted accordingly. I.e. 'automatic cost extensions', like for the 'national' projects, cannot be taken into account.
Eligibility of a partner as a beneficiary institution	See "Eligibility of principal investigator or other research team member" below.
Eligibility of principal investigator or other research team member	Who can be eligible for FWO funding? The eligibility of institutions and its researchers can be verified in the relevant regulations: → For FO projects, see articles 10-12 of the appropriate regulations. → For SBO projects, see articles 4-8 of the appropriate regulations. **Valorisation – with an economic and/or societal finality - is an essential feature of the SBO programme.** Additional conditions for FWO funding: Researchers have to inform the central research coordination unit at their host institution about their participation. **One and the same researcher can only participate in 2 different research projects/consortia when applying for FWO funding, within the same call. Double funding is not allowed.**
Eligibility of costs, types and their caps	▪ Only temporary personnel can be remunerated. ▪ For FO cost categories see chapters 7 and 8 of the regulations. ▪ For SBO cost categories see the SBO cost model.
Submission of the proposal at the national level	No. When the strategic basic research channel (SBO) would be the appropriate choice of funding, **we ask researchers to provide us with a 'valorisation plan' before the pre-proposal submission deadline**. There is no fixed format and one A4 page should suffice. What the FWO wants to know is how the valorisation within Flanders - and potentially internationally – will take place and which Flemish actors are involved in this. This information can be submitted to the general eranet@fwo.be email address.

Submission of financial and scientific reports at the national level	Financial reporting: Yes Scientific reporting: depends on the funding channel ▪ FO projects: Reporting at ERA-NET level only; ▪ SBO projects: Besides the reporting at ERA-NET level, a report at national/regional level is also required, including a valorisation report.
Further guidance	The FWO administration will contact the applicants after the pre-proposal submission deadline (and possibly also the full proposal, if applicable) in order to (re-)verify the choice of funding channel. Additionally, in view of the GDPR regulations, explicit consent will be asked from the researchers, after submission of the project proposal, to deliver some basic information about their participation to the relevant host institutions. **Interesting links:** FWO call page for European programmes (ERA-NET) https://www.fwo.be/nl/mandaten-financiering/europese-programmas/era-net/oproepen/ SBO programme regulations https://www.fwo.be/nl/mandaten-financiering/onderzoeksprojecten/sbo-projecten/ FO programme regulations https://www.fwo.be/nl/mandaten-financiering/onderzoeksprojecten/junior-en-senior-onderzoeksproject/

Initial funding pre-commitment	500.000€ Only 3 years projects 3-5 projects tentatively envisaged to be funded.
Maximum funding per awarded Spanish project partner	Maximum funding per awarded Spanish project partner • Up to 175,000 € per partner (overheads included) • Up to 250,000 € per coordinator (overheads included)
Eligible institutions	• **Hospitals, primary health care or public health administration of the Spanish National Health System** (SNS) These institutions may manage research via a foundation regulated in accordance to the Spanish Act 50/2002, of December 26th (a copy of the foundation's statutes may be submitted). • **Accredited Health Research Institutes** (Institutos de Investigación Sanitaria acreditados, IIS) Accredited according to the RD 339/2004, of February 27th or RD 279/2016 (These institutions may manage research via a foundation regulated according to the Spanish Act 50/ 2002, of December 26th) http://www.eng.isciii.es/ISCIII/es/contenidos/fd-investigacion/fd-institutos-investigacion-sanitaria/listado-de-iis-acreditados.shtml • **CIBER or CIBERNED**. Team members applying to the call must be from at least two groups belonging to CIBER in two different home institutions and one of these two should be a Hospital, primary health care or public health administration of the Spanish National Health System (SNS) or Accredited Health Research Institutes (Institutos de Investigación Sanitaria acreditados, IIS). • **Academia or Other Research Centers**. These entities can only participate if they apply together with Hospitals, primary health care or public health settings of the Spanish National Health System (SNS), or Accredited Health Research

Additional eligibility criteria	Institutes (Institutos de Investigación Sanitaria acreditados, IIS) in the same proposal. It is not allowed to apply independently, thus **there must be two beneficiary Spanish institutions requesting funding to ISCIII in the same proposal.** PLEASE NOTE: I. Applicants from ISCIII are eligible. Eligibility criteria from AESI 2020 apply. II. Durations of national grants are up to 3 years. III. Same institution cannot participate with more than one partner in the same project proposal. IV. Only one PI per beneficiary institution may be funded within the same proposal. V. There is no other incompatibility with AES 2020. -
Eligibility of PI and team members	•Principal Investigators (PI) can only participate in one project proposal per call. •The Principal Investigator (PI) and all members of the research group must belong to the eligible institution or be affiliated to CIBER, CIBERNED or an IIS. Excluded personnel as Principal Investigator (PI): •Those undergoing a postgraduate training in Health Specialization (MIR, FIR, QIR, BIR, PIR). •Those undergoing research training (e.g. PhD students, or "Río Hortega" contracts). • Researchers contracted by a RETIC or a CONSOLIDER. - • Those undergoing postdoctoral training (e.g. "Sara Borrell" or "Juan de la Cierva" contracts). -
Eligible costs	• Personnel costs for temporary employment contracts (scholarships are not eligible). • Current costs, small scientific equipment, disposable materials, travelling expenses and other costs that can be justified as necessary to carry out the proposed activities. • Overheads, according to AES 2020.
National phase	• National applications will be required by ISCIII. Spanish Applicants should periodically check in the web page of ISCIII if they are qualified. ISCIII may not send invitations to the mandatory national phase. • Double funding of the same concept is not allowed. Due to administrative and legal regulations, the National Institute of Health Carlos III declares the end of September 2020 as national deadline for the decision on fundable project consortia which include Spanish partners to be funded by ISCIII. Any

	concerned applicant in a proposal for which no final decision has been made by the deadline, could be declared not fundable by ISCIII.
Requirements on data and repositories	• Researchers funded by ISCIII must make public the human genomic data, as well as relevant data (phenotype and exposition data) generated inside the funded project and will use open access repositories. Researchers must also make public all the necessary information for the interpretation of these genomic data, including lab protocols, data instruments survey tools. Regarding genomic data it is understood: association of complete genomes (GWAS), matrixes of de polymorphism of a single nucleotide (SNP) and sequence of genome, and transcriptomic, metagenomic, epigenomic and gene expression data. The researchers whose projects are funded by ISCIII are recommended to store their scientific data at the "ELIXIR Core Data Resources" or if non-European repositories or data bases they must be certified by ELIXIR or the US National Center for Biotechnology Information (NCBI). • ISCIII may no fund project that requires the construction of new repositories without decommissioning plans or ensured sustainability after the project´s end.

SWITZERLAND, SNSF

Country	Switzerland
Funding organisation	Swiss National Science Foundation: www.snf.ch
National contact person	Christoph Meier Email: christoph.meier@snf.ch Tel: (+41) 31 308 23 62
Funding commitment	1 Mio Swiss Francs (equivalent to approx. 0.9 Mio €)
Overheads	Overhead costs may not be included in the Swiss project budget. Overhead contributions, calculated on the basis of the total research funding given to a particular institution through all SNSF funding instruments, are paid directly to the applicant's institution on a yearly basis.
Anticipated number of fundable research partners	3-4, each Swiss applicants may be partner in only one EJP RD JTC 2019 proposal (Art.7.3, SNSF Regulations on Project Funding).
Eligibility of project duration	3 years
Eligibility of a partner as a beneficiary institution	n.a.

Eligibility of principal investigator or other research team member	Where not otherwise specified, the SNSF Funding Regulations, in particular, the SNSF Regulations on Project Funding apply: • SNSF Funding Regulations • General Implementation Regulations for the Funding Regulations • SNSF Regulations on Project Funding All Swiss partners in EJP RD projects must meet the eligible criteria for applicants in SNSF Project Funding. Swiss partners who have not previously obtained a project grant from division Biology and Medicine must contact the national contact point to confirm their eligibility as an applicant prior to submitting a proposal to the EJP RD JTC 2019. Foreign members of the international consortia applying for funding through the EJP RD JTC 2019 cannot be declared as "project partners" in the sense of Art. 11.2 of the SNSF Funding Regulations and may not receive any funding through the Swiss partner. Article 17 of the SNSF Funding Regulations applies, i.e. EJP RD proposals with overlapping funding periods with ongoing SNSF grants are only allowed if the two research projects are thematically distinct and pursue different goals. Grants given to Swiss partners will be managed according to SNSF Funding Regulations.
	Please note: The SNSF exclusively funds research conducted for non-commercial purposes. Pursuant to the Swiss Research and Innovation Promotion Act (RIPA) and the legal framework of the SNSF, no research grants are awarded if the relevant research is conducted for directly commercial purposes or if the persons involved in the research work do not enjoy full academic freedom.
Eligibility of costs, types and their caps	For eligible costs, please refer to the SNSF Regulations on Project Funding (Art. 8). Please note: overhead contributions cannot be applied for. Overhead is calculated on the basis of the total SNSF research funding given to a particular institution and is paid separately and in retrospect.
Submission of the proposal at the national level	Swiss partners are required to submit the pre-proposal and the full proposal to www.mySNF.ch together with the submission of the respective proposals to the EJP RD Joint Call Secretariat. For this, Swiss partners need a personal account on www.mySNF.ch. The SNSF office may ask Swiss partners to submit supplemental information as needed.
Submission of financial and scientific reports at the national level	Yearly financial reports for the use of SNSF funds and a scientific report at the end of the project.
Further guidance	Consortia including Swiss partners must submit a data management plan (DMP) which complies with the SNSF policy on open research data.

SWEDEN, SRC

Country	Sweden
Funding organisation	Swedish Research Council: www.vr.se
National contact person	Sverker Lundin, sverker.lundin@vr.se, +46(0)8 546 12315
Funding commitment	approx. 1.4 M€
Overheads	The grant amount includes indirect costs.
Maximum funding for Swedish participation	For Swedish participation in a consortium, the maximum amount that may be applied for is 450 000 EUR or 600 000 EUR if the consortia contains two Swedish partners. A consortium may include more than one Swedish partner, but the maximum amount for all Swedish participants together may not exceed the amounts given above.
Anticipated number of fundable research partners	2-3
Eligibility of project duration	3 years
Eligibility of a partner as a beneficiary institution	Not applicable
Eligibility of principal investigator or other research team member	Researchers applying for funds from the Swedish Research Council must hold a PhD. Only researchers at an administrating organisation approved by the SRC may apply. The applicant may not have an ongoing EJP RD grant or any other project grant concerning the same project concept, funded by the Swedish Research Council, at the start of the grant period. No restrictions apply for other research team members.
Eligibility of costs, types and their caps	The project grant may be used to fund all types of project-related costs, such as salaries (including your own salary, however no more than corresponding to the person's activity level in the project), running costs (such as consumables, travel including stays at research facilities, publication costs and minor equipment), premises and depreciation costs. Grants may not be used for scholarships. If a doctoral student participates, project funds may not be paid out as salary during teaching or other departmental duties.
Submission of the proposal at the national level	• All Swedish project leaders participating in the call for support from the Swedish Research Council shall also submit a parallel application using the Swedish Research Council's application system Prisma. The application form in Prisma can be reached from the call text at the SRC website: Swedish and English

	Parallel application is a mandatory eligibility criterion. Failure to submit the parallel application to the Swedish Research Council before the deadline of the Prisma call will result in the Swedish partner being declared ineligible. • All Swedish applicants must communicate with the EJP RD national contact person regarding their intention to participate in the call, before submission of the consortium application.
Submission of financial and scientific reports at the national level	Yes. According to the terms and conditions of the grant.
Further guidance	See national call texts for all national requirements: Swedish and English

THE NETHERLANDS, ZonMw

Country	The Netherlands
Funding organisation	ZonMw, The Netherlands organisation for health research and development, PO Box 93245, 2509 AE The Netherlands, http://www.zonmw.nl
National contact persons	Dutch applicants are strongly advised to contact Dr. Harald Moonen Phone: +31-(0)70 349 53 49 E-mail: moonen@zonmw.nl Dr. Sonja van Weely E-mail: weely@zonmw.nl
Funding commitment	1.8 M€ maximum
Overheads	Overheads are not eligible costs for ZonMw
Anticipated number of fundable Dutch project partners	~ 7-9 project partners
Maximum funding per grant awarded to a project partner	Up to 250.000 euro for a Dutch project partner for a 3-year project proposal
Maximum funding per grant awarded to a project with two national research partners	Up to 250.000 euro for a 3-year project proposal. In case a project consists of two Dutch project partners (only possible if one partner classifies as Early Career Scientist), the total amount of the ZonMw funding for the project is still maximised to 250.000 euro

Eligibility of a partner as a beneficiary institution	A. Dutch universities, research institutes affiliated to universities and university medical centres having an establishment or branch in The Netherlands. B. Research hospitals, health promotion institutes and knowledge institutes, centres having an establishment or branch in The Netherlands. C. Private companies having an establishment or branch in The Netherlands: up to 20% (incl VAT) of the Dutch budget in the project concerned. • Please read the eligibility of costs for Category A, B and C very carefully below. • Max. 1 application as coordinator is allowed. • 1 Dutch partner per application is allowed; a second Dutch partner is only allowed in case it concerns an Early Career Scientist (see 4.5 in the Call text). • The track record of the PIs is part of the assessment. • Cofinancing by private companies (*in cash* or *in kind*) is encouraged.
Eligibility of principal investigator or other research team member	The principle investigator should have (or get upon granting of the project) an employment contract at the eligible institution for at least the duration of the project; the principle investigator does not need to have a permanent position at the institute. A letter from the department head or other responsible official of the institute has to be submitted to ZonMw at the deadline of application of the full proposal in which information on the employment contract of the principle investigator is indicated. Furthermore, in this letter the department head or other responsible official should also guarantee that the applicant will have the time and facilities to perform the research properly and according to plan. The principle investigator should show strong commitment to (the results of) the project.
Eligibility of costs, types and their caps	• Aid for the concerning activities to the organisations in **category A** does not result in state aid according to the Framework for State Aid for Research and Development and Innovation. Organisations in category A must meet the criteria of the research and knowledge-dissemination organisation (hereinafter referred to as "research organisation") in accordance with the Framework for State Aid for Research and Development and Innovation (2014/C 198/03). • Aid to organisations in **categories B and C** is state aid and will be granted under the General Block Exemption Regulation: EC REGULATION No 651/2014, section 25 ('GBER'). All relevant conditions of the GBER apply, including but not limited to: o section 1.4 (no outstanding recovery order following a previous Commission decision, no aid to undertakings in difficulty) o section 1.5 (non violation of Union law by means of conditions or financing method), o section 8 (cumulation) o consideration 18 (the work on the aided project or activity starts only after the beneficiary has submitted a written application for the aid)

	○ The aid intensity depends on the Technology Readiness Level (TRL) of the activities of the Dutch partner, which should be clearly specified in a separate document to be sent to ZonMw at the deadline of application of the full proposal. Eligible costs of research projects executed by organisations in category A can be costs for personnel as part of the application of the Dutch applicant. Scientific personnel has to be appointed at a scientific institution in The Netherlands. Furthermore, consumables, animals, equipment, travels, costs for dissemination of results (implementation) are eligible (see the ZonMw grant terms and conditions from 1st July 2013). In most cases (e.g. in case of university/university medical centers) overhead is not allowed and the salary scales of VSNU (universities) or NFU (University Medical Centres) have to be used. Please use the ZonMw budget formats as basis for the budget calculations. Eligible costs of research and development projects executed by organisations in categories B and C shall be allocated to a specific category of research and development and may be the following: (a) personnel costs: researchers, technicians and other supporting staff to the extent employed on the project; (b) costs of instruments and equipment to the extent and for the period used for the project. Where such instruments and equipment are not used for their full life for the project, only the depreciation costs corresponding to the life of the project, as calculated on the basis of generally accepted accounting principles are considered as eligible. (c) costs of contractual research, knowledge and patents bought or licensed from outside sources at arm's length conditions, as well as costs of consultancy and equivalent services used exclusively for the project; (d) other operating expenses, including costs of materials, supplies and similar products, incurred directly as a result of the project. **National Funding rates** Funding quota of Dutch participants can be up to 100% for organisations in Category A. The funding quota for organisations in category B and C will be decided on a case-by-case basis depending on the size of the company, type of research/development in accordance with GBER, section 25.5 and 25.6. Fundamental/ Industrial/Experimental development will be funded. Other type of activities (e.g. coordination, management) is not eligible for funding as separate research tasks in the project schedule.
Eligibility of project duration	Up to 3 years

National phase	• Submission of the full proposal to ZonMw will be carried out once the international evaluation and the ranking list have been performed and endorsed by the Call Steering Committee and European Commission. ZonMw will send a letter to invite you to submit the granted full proposal. • The Dutch consortium partners in honoured consortia have to comply with ZonMw procedures for granted projects (e.g. uploading via ProjectNet - including the ZonMw budget format, and reporting annually). Scientific personnel has to be appointed at a scientific institution in The Netherlands. Granted consortia with a Dutch partner have to draw up and sign a Consortium Agreement in which also the intellectual property rights are incorporated. • A final draft version of the Consortium agreement (approved by all parties but not yet signed) will be required in order to assess conformity with applicable European state aid law, IP conditions and the general grant provisions of ZonMw. If the Consortium agreement is rejected, the funding by ZonMw cannot be granted. For more details (in Dutch): ZonMw juridische aspecten bij samenwerking. • Before the start of the granted project the Dutch researcher needs to compose a data management plan (DMP) to explain how to make the data collection from the Dutch part of the research project FAIR. ZonMw will send instructions to granted Dutch researchers. (https://www.zonmw.nl/nl/over-zonmw/toegang-tot-data/). • If a co-financer is not included in the consortium agreement, a Letter of Commitment needs to be submitted to ZonMw with the application. For more details (in Dutch): ZonMw financiele aspecten bij samenwerking.
Further guidance	• Collaboration with patient organisations is recommended; see also 4.4 in the Call text. • The ZonMw grant terms and conditions from 1st July 2013) apply for Dutch consortium partners.
