

Elaboration of the Proposal for the Detailed Utilisation of the Area in Building A

In connection with the reconstruction and completion of the complex, I charge the Methodological Council of the IOCB with the elaboration of the proposal for the detailed utilisation of the area in Building A as the basis for the elaboration of the project documentation for the building permit. In the proposal, proceed from the project documentation for the zoning decision. On the general level, follow the plan for the maximal utilisation of the area for the scientific activity of the institute. The areas for the service activities should occupy only the absolutely essential area.

At the same time, I charge the leaders of the individual teams with providing the Methodological Council with the data requested by it as soon as possible. The background materials may be requested by the speaker of the Methodological Council, doc. Michal Hocek, and it is to him that the background materials need to be delivered.

The Methodological Council will prepare the proposal no later than in one month. The Council will submit the proposal to the head and deputy head for construction.

Prague, 12th March 2010

RNDr. Zdeněk Havlas, DrSc.
Director
