

Deadline	Tue 20 Apr 2021 17:00 Brussels time (IOCB deadline Fri 16 Apr 2021)
Call name	ERC Consolidator Grant 2021
www	https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-
	details/erc-2021-cog
	https://erc.europa.eu/funding/consolidator-grants
Focused on	Breakthrough & ambitious basic research
PI	Junior researchers of any nationality who intend to conduct their research in any EU MS or an
	AC; PhD awarded between 01 Jan 2009 and 31 Dec 2013 (7–12 years since completion of PhD)
Eligible	Research institution of any type of legal entity (research organisation, public university, private
organisation	legal entity) established in an EU Member State or an Associated Country
Target group	Individual research team headed by a single PI (junior researcher) of any nationality
Expected	Open Access (J) reviewed specialist articles
outputs	
Call opens	Thur 11 Mar 2021
IOCB deadline	Fri 16 Apr 2021
Final deadline	Tue 20 Apr 2021 17:00 Brussels time
Evaluation	22 Nov 2021 1st step
results	28 Mar 2022 2nd step
Signature of	Indicative date: 26 Jul 2022
agreement	
Earliest date of	Jul/Aug 2022 (Pls will be able to start their project within 6 months of receiving an invitation
implementation	letter)
Latest date of	-
implementation	
Sustainability	None
Reporting	4 reports: months 1–18, 19–36, 37–54, 55–60; one report every 18 months (1.5 year)
Project duration	Up to 60 months (5 years)
(min-max)	
Allocation for	633 M EUR (317 projects)
the call	
Project budget	Up to 2 M EUR & additional 1 M EUR to cover "start-up" costs for PIs moving to the EU or an
(min-max)	Associated Country from elsewhere, purchase equipment, access to large facilities, major
	experimental and field work costs
Success rate	13.0 % (2020)
Eligible costs	Direct costs: personnel costs, travel expenses, equipment, goods & services, outsourcing
	(subcontracting); indirect costs: overheads max 25% of the total eligible direct costs
Reimbursement	
Mode of	Ex-ante
funding	
Language of	English
application

Call identifier	ERC-2021-COG
Call info	ERC Consolidator Grants are designed to support excellent Principal Investigators at the
	career stage at which they may still be consolidating their own independent research team or
	programme. Applicant PI must demonstrate the ground-breaking nature, ambition and
	feasibility of his/her scientific proposal.
Conditions /	Applicant has a PhD awarded between 01 Jan 2009 and 31 Dec 2013 (7–12 years since
Restrictions	completion of PhD, prior to 01 Jan 2021).

Competitive PIs must have already shown research independence and evidence of maturity by having produced several important publications as main author or without the participation of their PhD supervisor.

Pls should be able to demonstrate a promising track record of early achievements appropriate to their research field & career stage, e.g. significant publications (as main author) in leading international peer-reviewed journals, invited presentations at well-established conferences, granted patents, awards, prizes etc.

Applicants do not need to be employed by the host institution at the time when the proposal is submitted.

Grant proposals are submitted by the PI taking scientific responsibility for the project, on behalf of the host institution.

The PI has to spend at least 40% (≥0.4 FTE) of his/her working time on the project. The PI has to spend at least 50% (≥30 months) of his/her working time in an EU Member State or in an Associated Country.

The applicant must submit scanned copies of documents providing his/her eligibility for the grant, i.e. their PhD certificate.

Researchers may participate as PI in only one ERC project at a time. Researchers participating as PI in an ERC project may not submit a proposal for another ERC grant, unless the existing project ends no more than 2 years after the call deadline.

The host institution support letter needs to be printed on paper with the official letterhead of the Host Institution, originally signed, stamped and dated by the institution's legal representative.

Copies of official documents can be submitted in any of the EU official languages. Document(s) in any other language must be provided together with a certified translation into English or into any other official EU language.

The PI is expected to start the project within 6 months of receiving an invitation letter from the ERC.

Applicants should be aware that it is mandatory to provide Open Access to all peer-reviewed scientific publications arising from results from ERC projects.

The ERC recommends that all funded researchers follow best practice by retaining files of research data produced and used, and are prepared to share these data with other researchers when not bound by copyright restrictions, confidentiality requirements, or contractual clauses.

The application form (participants) newly contains a 'gender equality plan (GEP)' yes/no tickbox to be filled in by the host institution contact person. This answer will not affect the evaluation of the project. In case the proposal is selected for funding, having a Gender Equality Plan (with minimum requirements) will be necessary before the grant signature.

Proposal consists of

On-line application on the Funding&Tenders Portal: https://webgate.ec.europa.eu/cas/login

- 1) Administrative form (Part A, on-line on the Funding&Tenders Portal): (i) General information: Abstract, Declarations; (ii) Administrative data of participating organisations: Host Institution, Department, Principal Investigator, Contact Address, GEP yes/no tickbox, PI career stage; (iii) Budget budget table; Section C. Resources (detailed description of resources, max. 8000 characters, incl. spaces) (iv) Ethics and security issues tables; (v) Call specific questions (applicant & Project Office)
- 2) **Research proposal** (Part B1, use template): Cover Page, (a) Extended Synopsis of the scientific proposal (max 5 pages excluding references); (b) CV (max 2 pages); (c) Early achievements track-record (max 2 pages, uploaded in PDF) (applicant & Project Office); Appendix: Current research grants and any on-going applications related to the proposal of the PI(Funding ID) does not count towards page limits
- 3) **Research proposal** (Part B2, use template): Scientific proposal: (a) State-of-the-art and objectives; (b) Methodology; Sections (a) and (b) of Part B2 should not exceed 14 pages. References do not count towards the page limits (applicant & Project Office)
- 4) Commitment of the host institution for ERC Calls 2021 (Project Office & Director)
- 5) PhD certificate (in English, or another EU official language) (applicant)
- 6) Other documentation needed on eligibility and ethics issues, i.e. documents related to ethics or security issues if relevant (Project Office & applicant)

Evaluation criteria

Two-step peer review evaluation of scientific excellence: (i) cross the boundaries between different fields of research; interdisciplinary research proposals; (2) addressing new & emerging fields of research; (iii) introducing unconventional, innovative approaches & scientific inventions

Step 1: CV, track record & scientific proposal (Part B1)

Step 2: Full scientific proposal & 30 min interview in Brussels – presentation, questions (B1& B2, Section 3 - Budget)

	Research Project: Ground-breaking nature, ambition and feasibility
	1) To what extent does the proposed research address important challenges?
	2) To what extent are the objectives ambitious and beyond the state of the art (e.g. novel
	concepts and approaches or development between or across disciplines)?
	3) To what extent is the proposed research high risk/high gain (i.e. if successful the payoffs
	will be very significant, but there is a higher-than-normal risk that the research project does not
	entirely fulfil its aims)?
	4) To what extent is the outlined scientific approach feasible bearing in mind the extent that
	the proposed research is high risk/high gain (based on the Extended Synopsis Step 1)?
	5) To what extent are the proposed research methodology and working arrangements
	appropriate to achieve the goals of the project (based on the full Scientific Proposal Step 2)?
	6) To what extent does the proposal involve the development of novel methodology (based on
	the full Scientific Proposal Step 2)?
	7) To what extent are the proposed timescales, resources and PI commitment adequate and
	properly justified (based on the full Scientific Proposal Step 2)?
	2) Principal Investigator: Intellectual capacity and creativity
	8) To what extent has the PI demonstrated the ability to conduct ground-breaking research?
	9) To what extent does the PI provide evidence of creative independent thinking?
	10) To what extent does the PI have the required scientific expertise and capacity to
	successfully execute the project?
Research areas	Life Sciences (9 panels): (LS1) Molecules of Life: Biological Mechanisms, Structures and
1 tooodi on di odo	Functions; (LS2) Integrative Biology: from Genes and Genomes to Systems; (LS3) Cellular,
	Developmental and Regenerative Biology; (LS4) Physiology in Health, Disease and Ageing;
	(LS5) Neuroscience and Disorders of the Nervous System; (LS6) Immunity, Infection and
	Immunotherapy; (LS7) Prevention, Diagnosis and Treatment of Human; (LS8) Environmental
	Biology, Ecology and Evolution; (LS9) Biotechnology and Biosystems Engineering
	Physical Sciences & Engineering (11 panels): (PE1) Mathematics; (PE2) Fundamental
	Constituents of Matter; (PE3) Condensed Matter Physics; (PE4) Physical & Analytical
	Chemical Sciences; (PE5) Synthetic Chemistry & Materials; (PE6) Computer Science &
	Informatics; (PE7) Systems & Communication Engineering; (PE8) Products & Processes
	Engineering; (PE9) Universe Sciences; (PE10) Earth System Science; (PE11) Materials
	Engineering
	Social Sciences & Humanities (7 panels): (SH1) Individuals, Markets & Organisations; (SH2)
	Institutions, Governance and Legal Systems; (SH3) The Social World and its Diversity; (SH4)
	The Human Mind and its Complexity; (SH5) Cultures & Cultural Production; (SH6) The Study
	of the Human Past; (SH7) Human Mobility, Environment and Space
