

## Part A – information about the applicant

- new: include the date of **Ph.D. defence** – monitoring career stage / time spent in research
- new: **primary institution** of the applicant (country, institution) in the last 3 years (or longer if you have had a career break) – demonstrates experience from abroad

## Part C1 – project proposal

- new: **Risk analysis** required (identification, probability, mitigation)
- new: a reference to the **Gender Equality Plan** required (IOCB has an Equal Opportunities Plan) <https://www.uochb.cz/en/equal-opportunities>, we also recommend that you include the HR Award <https://www.uochb.cz/en/hr-award>) – condition for continued financing of the project after first year report
- new: a **Data Management Plan** is required (description of data that will be collected and how it will be handled), there is emphasis on Open Access

## Part D1 (CV Applicant/Co-applicant)

- possibility to **explain any career gaps and/or drops in research productivity** (max. 2 pgs. A4)

## Part D2 (other achieved results)

- summary of scientific career over the last 10 years (previously just 5 years) – in the format of a „track record“, description of scientific career – contribution to the field, most significant results, not just a duplication of CV.
- new: for „significant projects“ include **start and end date**, as well as provider, grant value, brief description of topic (if not apparent from title)

## Part E – information about other projects

- new: limit for **projects to be included extended to last 5 years** (previously just 3 years), must include **start and end date**. Complete in English.

*Just a reminder:*

The condition still stands that one person can only apply to a limited number of projects across all GAČR calls in a given year – **1x as an Applicant and 1x as a Co-Applicant** – includes Standard projects and international ones (bilateral and LEAD Agency – if only Czech team, you are always an Applicant).

EXPRO, JUN STAR and PIF proposals are not included in this limit.
