Cover production at IOCB

- The following pages only include covers created by our graphic designer Tomáš Belloň between June 2019 and June 2021.
- Other IOCB covers are not listed. Therefore it is reasonable to expect that the total number of covers over this period is actually higher.
- Price per cover is mentioned only where known, in other cases the information about price goes from the journal directly to the author of the respective paper. (This doesn't cover the cost of the graphic designer.)
- Payment for the cover placement is not done through Communications, it is covered by IOCB general account solely upon Director's approval.
- Director's approval must be sought prior arrangements with Communications department.
- As the capacity of our graphic designer is limited, Communications reserve the right to postpone or decline to work on the cover.
