Clearing escape routes

Following the operational accident on 11th January, I would like to stress that ensuring the safety of employees is of utmost priority for IOCB. As accidents in the laboratory can never be completely excluded despite all precautions, all access and escape routes must remain unconditionally cleared to allow immediate access to safety showers, rapid intervention by emergency services and safe evacuation of staff if necessary. I therefore request that Group/Department Leaders ensure that all items other than fire extinguishers and sorted waste containers are removed from all escape routes (i.e. corridors and staircases). **This includes particularly any furniture, bicycles, boxes, chemicals and their packaging.** If it is not rectified by 21st January, these items will be removed at the group's expense.
