Call identifier	GAČR WEAVE LA lead 2024
Conditions / Restrictions	<ul style="list-style-type: none"> • GAČR WEAVE (Lead Agency) supports bilateral and trilateral projects in basic research with clear aspect of cooperation among involved research teams from 2–3 countries involved in the WEAVE initiative (Austria, Poland, Czech Republic, Slovenia, Germany, Switzerland, Luxembourg). Proposals will be evaluated under the Lead Agency principle, i.e. the project proposal is evaluated only by the Lead agency. A joint project proposal must be prepared according to formal conditions and requirements of the Lead Agency (in this case GAČR). The Lead Agency will administer the whole evaluation process in accordance with its usual procedures. A budget proposal is submitted separately by both teams to their national agency in accordance with the national conditions. Each provider funds its own national research team. • A project proposal prepared jointly by the Czech and foreign partner must be submitted to the Lead Agency (in this case GAČR) • The foreign applicant (partner) must, concurrently, submit the foreign part of the proposal to their funding agency (which has a partner agreement with GAČR) • Applicants may choose which side they choose as the Lead Agency • A single individual may submit no more than two Project Proposals within all of the public tenders administered by GACR in a given calendar year for Projects launched in 2024 (subject to the exception provided below), and may be in the role of Applicant in one of the Proposals, and co-Applicant in the other. Tool for verification: https://gacr.cz/soubehy-navrhu-projektu-2024/ • If both such Project Proposals submitted by a single individual are selected for funding, he or she may proceed to carry out both Projects, unless prevented by any other circumstance arising from the relevant tender documentation or applicable rules. • Three exceptions to the foregoing are the tenders for JUNIOR STAR projects and the POSTDOC INDIVIDUAL FELLOWSHIP (both INCOMING and OUTGOING), in which an Applicant may submit Project Proposals regardless of any other tenders or calls. An individual who submits a Project Proposal for a JUNIOR STAR or POSTDOC INDIVIDUAL FELLOWSHIP project may submit a maximum of two more Project Proposals, one as Applicant, and the other as Co-applicant.

	<ul style="list-style-type: none"> Furthermore, project proposals that have been excluded from the evaluation on the part of the foreign agency will not count towards the limit of project proposals submitted in a given year. If an Applicant withdraws from a public tender, or withdraws from the evaluation process pursuant to the relevant provision of the Rules for International Grant Projects evaluated on a Lead Agency basis (LA Grants) before submitting another Project Proposal which would otherwise cause an overlap of projects contrary to the above provisions, the Project Proposal withdrawn by the Applicant shall be treated as if it had never been submitted. Such Project Proposal will then not count towards the limit of Project Proposals submitted in a given year. Recommended workload is at least 0,2 full-time equivalent (FTE) for principal investigator and 0,1 FTE for co-investigator. A zero workload for a participant is not permissible. A sum of workloads for one person in all projects financed from GAČR cannot exceed 1 FTE. The research organization/beneficiary undertakes to ensure that the proposer/investigator spends a period at the host institution equivalent to the amount of full-time employment in the project. A postdoc is a person who obtained their PhD less than 8 years before the starting date of the project (2.1.2016– 1.1.2024). Career breaks such as maternity leave, parental leave and long-term illness are excluded from the limit. Salary cap: Only the aliquot part of the salary with maximum at 60 000 CZK (gross salary) at 1,0 FTE is eligible. In other types of contracts – limit for eligibility of the costs is 400 CZK/hour The costs of bonuses are not eligible for reimbursement. Permitted attachments (to be uploaded only to the GRIS application) <ul style="list-style-type: none"> A Letter of Intent verifying the international cooperation or a commitment to perform the necessary work at an institution abroad. A list of foreign institutions that shall not be asked to evaluate the proposal A quote from a supplier comprising the proper identification of supplier, the supplied items and the preliminary price – required if the cost of a single tangible asset exceeds 750,000 CZK or if the service(s) from a single supplier represent a value higher than 250,000 CZK/project; Special licences – if required for the project implementation (check validity of the licence) <u>Important note for joint proposals with NCN (Poland):</u> when GAČR is acting as the Lead Agency, the budget in EUR in the GAČR application must not differ from the budget in Zloty submitted in the OSF application of the NCN. Failure to comply will result in rejection of proposals for formal reasons. The current EUR/Zloty conversion rate is available on the NCN website. Another reason for formal rejection by NCN is inconsistency between the information on the Czech and Polish side in the number of team members and salaries requested.

Evaluation criteria	<p>Scientific aim (aim of the project proposal); proposed methodology of implementation; quality of the national/foreign applicant (publications, previous international collaboration, experience leading projects); type of expected project outcomes; added value of the international</p>

	collaboration; evaluation of past cooperation between the applying research organization and GAČR; international cooperation; adequacy of proposed costs. Evaluation of project proposals is carried out in evaluation panels and discipline committees of GA ČR: (1 st stage - 2 expert reviews by panel members + panel evaluation; 2 nd stage assessment from foreign experts + panel evaluation). The Project Proposals shall be evaluated and ranked against the other Project Proposals submitted in the tender for Standard Projects. This approach shall ensure a true competitive environment of Proposals in the LA Grants group vis-à-vis competing Proposals submitted domestically and evaluated by the Czech Science Foundation.
