

	1
Deadline	Throughout the year 2024
Call name	EMBO: New Venture Fellowships 2024
www	Call: https://www.embo.org/funding/fellowships-grants-and-career-support/new-venture-
	fellowships/
	Launch of the fellowship: <a href="https://www.embo.org/features/embo-new-venture-fellowship-launched-">https://www.embo.org/features/embo-new-venture-fellowship-launched-</a>
	in-memory-of-suzanne-eaton/
Focused on	Supporting early career scientists, in any field of life science research, who would use this
	opportunity to enter a new field or bring a new direction to their research efforts; supporting high
	quality candidates to explore feasible projects or generate preliminary data to help transform their
Applicant	research trajectory.  Active research scientist at any career stage with a least two years of PhD (or equivalent)
Applicant	experience and no more than two years experience as an independent group leader; group leader,
	senior researcher, junior researcher, postdoc, PhD student
Host institution	One host and one receiving research organisation or university in an EMBC Member State:
	Austria, Belgium, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece,
	Hungary, Iceland, Ireland, Israel, Italy, Latvia, Lithuania, Luxembourg, Malta, Montenegro,
	Netherlands, Norway, Poland, Portugal, Slovak Republic, Slovenia, Spain, Sweden, Switzerland,
	Türkiye, United Kingdom / Associated Member State or Co-operation partner: Chile, India,
	Singapore, Taiwan.
Call opens	Feb 2022
Final deadline	Throughout the year 2024. It is recommended that applications are submitted at least three
	months before the proposed start date of the research visit.
Evaluation results	Within 3 months
Signature of	
agreement	<del> </del>

Call identifier	EMBO-NVF-2024
Call info	The EMBO New Venture Fellowships fund research exchanges of up to three months between
	laboratories in eligible countries. The aim is to enable the applicant to engage in a new
	area of research or bring a new direction into their current research. New Venture Fellowships are
	intended for joint research work rather than consultations.
Conditions /	The applicant needs to register for an EMBO online application account. Once login details for the
Restrictions	account have been received it is possible to start an application.
	Applicants must be an active research scientist with a minimum of 2 years' research experience at
	the PhD level, and no more than 2 years' experience as a new group leader, at the time of
	application. The fact that an applicant has proviously hold an EMBO Scientific Evahance Crant or Restdeeters.
	The fact that an applicant has previously held an EMBO Scientific Exchange Grant or Postdoctoral
	Fellowship does not preclude further applications for a fellowship for a new project in a different
	laboratory. Applications to work with former colleagues, PhD or postdoc supervisors, or to work in laboratories
	previously visited will not be considered, other than in exceptional circumstances and with prior
	approval by the Fellowship Office.
	Applications to visit laboratories in the context of an already existing long-term collaboration or
	involving previous exchanges of scientists have low priority for funding.
	_ intering provides exertainged or esternished nave fow priority for furnaling.

The scheme encourages international collaboration. Exchanges between two laboratories within the same country are not eligible.  It is not possible to hold an EMBO New Venture Fellowship with an EMBO Scientific Exchange Grant, Core Facility Fellowship, or Postdoctoral Fellowship at the same time.  EMBO does not consider applications for EMBO New Venture Fellowships to tested visits begun under other auspices, or as bridging fellowships between, or prior to, long term stays funded by Applications for fellowships and the provide funding for prior to, long term stays funded by Applications for fellowships to attend courses, workshaps, or symposia will not be considered. EMBO New Venture Fellowships do not provide funding for courselworkshopsymposia registration fees, benchless, overheads or any other expenses beyond travel costs between the laboratories involved and the subsistence rates depending on the country visited.  The fellowship does not cover Visa costs. EMBO cannot advise on Visa or Tax matters. Applications to work on a project purely applied, intended to develop a product (commercial or not) or a procedure will not be considered. All projects must have a biological significance and should aim to increase our knowledge on a particular biological process.  It is not possible to apply for an EMBO New Venture Fellowship if other, parallel exchanges are planned to take place between the home and the host laboratories during the planned fellowship of the proposed visit, the applicant must notify the EMBO Fellowship Office immediately.  If the applicant has secured additional funds or grants from other institutions to support the protection of Human Subjects of Research, and in the Singapore Statement on Research Integrity. Principles, such as those set out in the Belmont Report. Ethical Principles and Guidelines for the Protection of Human Subjects of Research, and in the Singapore Statement on Research Integrity. Completion of the course is strongly encouraged by EMBO.  Do NOT indicate the journal impact fa
