Call info	IOCB Prague opens up to 10 postdoctoral positions in chemistry and biochemistry per year to support talented postdocs, who did their undergraduate and graduate studies at reputable institutions.
Conditions / Restrictions	The applicant cannot be employed at the IOCB for more than 9 months before the application deadline.  IOCB Prague will support only projects of strong candidates, who did their undergraduate and graduate studies at reputable institutions in Czechia (except IOCB) and abroad, based on competitive research that is documented in several original publications in respected journals of the fields. For Czech applicants, international experience is of great advantage. The fellowship must be started within 12 months of the award committee's decision, except in cases of maternity/parental leave (18 months extension). If a later start is intended, the committee will require a new proposal to be submitted.  Temporary accommodation in the guest houses of the institute or Czech Academy of Sciences may be offered at an affordable rent.
